Foreword

NORENSE has since its foundation in 2008 promoted and supported research on Waldorf Steiner education, and sought to contribute to the knowledge base and legitimacy of the Nordic Waldorf Steiner higher educational institutions. Today's schools and educational practices are more and more informed by research. Still, very little research has until now been directed towards Waldorf Steiner education, and there is a strong need for all kinds of educational research; enquiring, evaluating, deepening and communicating the various aspects of Waldorf Steiner education.

Research can aid and initiate developments and new knowledge on all levels from kindergartens and schools to higher education and social therapeutic institutions. NORENSE aims at supporting qualified research that in its turn will provide insights and impulses for development to the different aspects of Waldorf Steiner education. The higher educational institutions are key factors here since they both disseminate relevant research to future and current practitioners, and also conduct research as part of their institutional policy and responsibility.

NORENSE is founded on the idea that education has an important role to play in achieving individual, cultural and ecological sustainability. NORENSE wants to take its share of the responsibility for an education in need of change and to promote an education of tomorrow that takes active part in developing sustainable knowledge, skills and life conditions. Waldorf Steiner education represents such an ethical attitude towards what it means to educate today's children and youth for their future. By promoting research and the Nordic Waldorf Steiner higher educational institutions, NORENSE want to take part in the further development of Waldorf Steiner education.

NORENSE is supporting individual and group research projects, as well as PhD and master students. In addition, NORENSE hosts a yearly seminar open to the public where supported projects and other relevant research topics are presented. By hosting yearly open seminars about research on Waldorf Steiner education, NORENSE aims at sharing research insights to a broader public. Publishing supported research projects both in popular and scholarly media belongs to the NORENSE strategy of making research-based insights more relevant and accessible.

NORENSE receives its funding resources mainly from the Waldorf school and kindergarten federations in the Nordic countries. The NORENSE Council decides on the yearly funding and are responsible for the yearly seminars and network meetings. The council consists of representatives from the Nordic Waldorf Steiner higher educational institutions; Rudolf Steiner University College (RSUC), Waldorf University College (WLH) and Snellman College

(SC), representatives from the parent, kindergarten and school federations and representatives from three Nordic universities. NORENSE is an ideal association.

An important legal change took place in 2018. NORENSE is since 2018 an ideal association. New statutes were decided upon in April 2018. The aims for the NORENSE are the same as before.

In the Annual Report for 2020, there is a presentation of NORENSE activities this year, an overview of research projects funded, a presentation of the accounts and a summary of the most important issues that were dealt with on the NORENSE Council meetings.

NORENSE Council wishes to thank all financial contributors for the grants made to NORENSE in 2020.

Economy and Budget

NORENSE is made possible due to donations from the Waldorf Steiner school and kindergarten federations in the Nordic countries and donations from the Ahtola foundation in Finland. In addition to the donations from the federations and Ahtola, which have been used to support research projects, none of the participants in the NORENSE Council receives any payments for the work done. RSUC, WLH and Snellman cover travel expenses for their representatives.

RSUC, is reimbursed for administration services. The Finance Manager at RSUC, Steinar Døhlen, manages the economy for NORENSE.

We have not received contributions from the the Ahtola foundation and have therefore not transferred any contributions to the research journal Research on Steiner Education (RoSE). We will have to look over our possibility to do so next year.

The Norwegian federation decided that from 2017 a sum of 350 000 NOK of the Norwegian contribution (totally 590000 NOK in 2018) to NORENSE in the future is to be earmarked for development of academic competence at RSUC. The sum is to be transferred yearly by NORENSE.

We are very grateful for the donations from the federations.

Legal status of NORENSE

Short historical background

In March 2008 representatives from RSUC, WLH and Snellman college signed a letter of intent. The three institutions recognized a need to develop a Nordic research culture connected to Waldorf education and that this aim should be worked upon within a Nordic collaboration and network. Such a collaboration also aimed at through such work support sustainable institutions within waldorf education. The institutions considered it vital that the pre-schools and schools were included in the work via the federations.

In February 2009, the first NORENSE network-meeting took place in Stockholm. In 2010 the NORENSE council was formally established and with that more formalized statutes and criteria for the work were decided upon. We had a construction in which RSUC hosted NORENSE within its organisation. It was also in 2010 that we could grant the first scholarships.

The council consisted, from the beginning, of representatives from the three institutions and federations. After a few years we decided to invite external academic delegates in the council.

New legal body and statutes

In 2016 it became clear that NORENSE must find a new legal organisation and status. New statutes were written, and they became finally decided upon in April 2018. Although this was done in 2018 we have included the new statutes in this report. NORENSE is from now an ideal association. RSUC is currently the business executive, which means that the administration is handled by RSUC and financed by NORENSE. The members appoint one or two leaders amongst them. Since November 2018 Henrik Holm and Caroline Bratt have shared leadership.
